

Pitch Basel West

STADTKLIMA-
KONZEPT

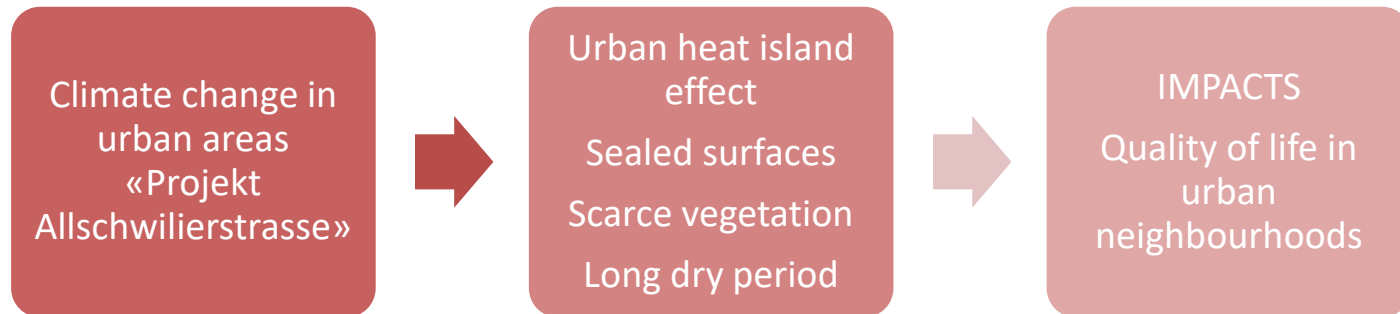

Regierungsrat des Kantons Basel-Stadt

<https://vimeo.com/813816884>

Problem & point of departure...

- **Vulnerability**

(Climate Impact on population: Level of Life Quality, Work Performance, ...)

- **Year 2030**

25% of entire population in the city of Basel

Strategy «Stadtklimakonzept»

Funding available: «Mehrwertabgabefonds»

Goals

DINA - Digital Interactive Neighbourhood App with Map

- Promoting Climate Resilient Neighbourhood
- Activating Local Ressources of all Stakeholders
- Strengthening Neighbourhood Engagement and Local Identity

1. Urban development projects

Information on development projects (municipality, STSW)

- No participation
- Formal participation
- Informal participation

2. Ready to use areas

Mehrwertabgabefonds» (landowner, local businesses)

- Greenery options
- Benefits
- Funding options

Appropriation of space – local community

- Find ready to use space
- Get info on space
- Collect and discuss ideas with others
- Get organised

3. Make it Yours!

Drop a pin on the neighbourhood map

Get information on space – possible to use? How? Who to contact? Any alternatives? Find other interested people and get organised
